

Weifield Group Electrical Contracting

MEDIUM VOLTAGE DESIGN & INSTALLATION SERVICES

HOW IT WORKS

The Medium Voltage Expertise You Need to Succeed

Weifield offers in-house medium voltage design and installation services, covering voltage ranges from 4,160V to 34.5kV, to support client needs across a variety of industry verticals. Our expertise includes providing power for campus infrastructure, central utility plants, switchgear upgrades, motor control centers, uninterruptible power supplies, and other essential power systems.

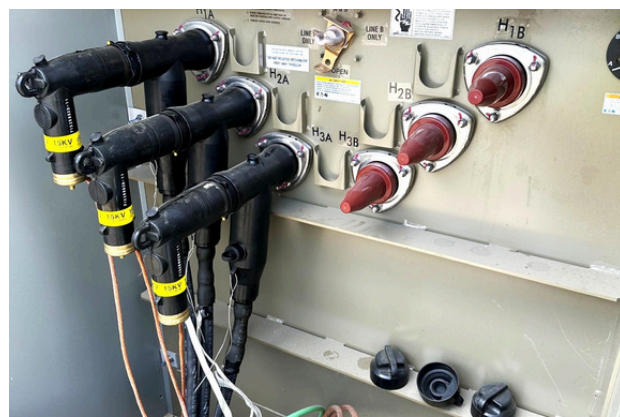

In addition to providing electrical services for facilities in nearly every industry, Weifield specializes in smaller to largescale installations of medium voltage cabling to help fortify the stability of this continuous power source.

TRUSTED EXPERTISE

PROVEN RESULTS

WHAT WE DO

Comprehensive Design & Installation for All Industries and Voltage Types

Weifield's team is well-versed in all aspects of medium voltage distribution, including regulatory and environmental requirements, integration of systems and cabling/conduit, design considerations including safe grounding design, protection and controls, automation and communication, & more.

THE RIGHT SOLUTION FOR PEACE OF MIND

Performance & Cost-Effectiveness for Every Client.

Our Expertise Includes:

- Campus infrastructure power
- Central utility plants
- Switchgear upgrades
- Motor Control Centers (MCCs)
- Uninterruptible Power Supplies
- Other power systems

KEY FEATURES & BENEFITS

In-House Training/Expertise

Weifield has a dedicated team of certified medium voltage specialists, including project managers and electricians, providing seamless collaboration across all phases—who are certified through our own medium voltage certification program culture of electrical safety.

Advanced Equipment/Tools

We utilize the latest technology and equipment, ensuring efficiency, safety, and precision in every project.

Comprehensive Service

We manage everything from medium voltage system design and equipment procurement to installation, testing, and ongoing maintenance.

Proven Track Record

Extensive experience in high-stakes projects such as data centers, manufacturing plants, water treatment plants, high rise block projects, convention centers, and mission-critical facilities, with successful delivery of complex medium voltage systems.

Strong Safety Culture

Safety is a top priority, and our team adheres to strict safety protocols and industry standards, minimizing risk and ensuring compliance with regulatory requirements.

Your Pathway to Success Begins Here

weifieldcontracting.com

Why Choose Weifield? Due to our focus on delivering the highest quality medium voltage services, cable installations, terminations, and quality control/inspections, our clients are able to benefit from a customized approach designed to their requirements while freeing up resources to focus on their core business. If you would like to learn more about our Medium Voltage Design & Installation Services, **contact us today!**
