

Weifield Electrical Service Division

## ELECTRICAL PREVENTATIVE MAINTENANCE

### HOW IT WORKS

## Proactive upkeep of assets and equipment

Let Weifield Group Services boost your facility performance and longevity with our **Electrical Preventive Maintenance plan designed specifically for your facility needs.**

If your organization operates large-scale electrical systems, you know the impact that an electrical system failure can cause to business operations.

A Weifield Group Services electrical preventive maintenance plan can help prevent equipment breakdowns, costly electrical failures, and operational downtime. With our electrical preventive maintenance plan, you are able to track electrical maintenance due dates to help you stay on schedule and compliant with NFPA 70B requirements.

We customize your plan to your facility needs, offering insights and guidance to help craft the plan that is optimally prioritized to your specific equipment and organizational goals.

PREDICTIVE ANALYSIS

RISK MITIGATION

### WHAT WE DO

## Identifying potential issues before they become major costly problems

**Preventive maintenance is the process of providing proactive upkeep and repairs to assets and equipment, performing maintenance tasks at regular intervals to prevent premature damages and malfunctions to electrical connections, systems, and equipment.**

*Our experienced team uses a proven process to assist in defining the best practices, perform the key inspections, and execute essential tasks needed to ensure your continual system uptime.*
